\* paid per hour worked or for the number of hours for which pay is received.

### Summary Duties

In connection with miscellaneous construction, alteration, and repair activities at various locations in the Power System, operates air, gasoline, and electric-powered portable and stationary pumps for dewatering excavations and for other construction purposes; maintains discharge rate within predesignated limits; lubricates, maintains and makes minor running adjustments and repairs to pump units, including motors; and performs related duties.

#### 1. Overtime

Employees shall be compensated for each hour worked on holidays (or holiday equivalents), at a rate computed by multiplying the appropriate hourly rate by three (3); for each hour worked on Sundays, and in excess of four (4) hours overtime on a normal workday, and in excess of twelve (12) hours on a Saturday, at a rate computed by multiplying the appropriate hourly rate by two (2); and for each hour of all other overtime at a rate computed by multiplying the appropriate hourly rate by one and one-half (1½), except that when an employee is working overtime with other trades or crafts (working overtime) which receive a higher overtime rate multiple, the employee shall receive the same rate multiple as the highest paid to the other trade or craft.

Notwithstanding the provisions specified herein, employees performing work on a de-watering operation shall be paid at the rate of double time for work performed on Sundays and holidays (or holiday equivalents).
