Summary Duties

In connection with miscellaneous construction, alteration, and repair activities at various locations in the Power System, operates or assists in operating, a truck-mounted tower crane used to unload and move heavy material, machinery and equipment into place, controlling equipment operation in response to arm, bell, buzzer and other signals; converts equipment to and from conventional-type boom crane; maintains equipment in the field making minor repairs and adjustments; and performs related duties.

1. Overtime

Employees shall be compensated for each hour worked on holidays (or holiday equivalents), at a rate computed by multiplying the appropriate hourly rate by three (3); for each hour worked on Sundays, and in excess of four (4) hours overtime on a normal workday, and in excess of twelve (12) hours on a Saturday, at a rate computed by multiplying the appropriate hourly rate by two (2); and for each hour of all other overtime at a rate computed by multiplying the appropriate hourly rate by one and one-half (1½), except that when an employee is working overtime with other trades or crafts (working overtime) which receive a higher overtime rate multiple, the employee shall receive the same rate multiple as the highest paid to the other trade or craft.
